## THE POWERFUL FORCE TO COMBAT THE SIGNS OF AGING

The New Generation Liposomes are a patented and completely innovative system that transports selected active substances, closed inside the capsules, directly into the skin to make them work even more effectively and for longer time. The new generation plant capsules, unlike the “ordinary” liposomes, have been positively charged, increasing the cellular bio-availability of the ingredient contained in them. As a result, they effectively counteract the key signs of aging: wrinkles, folds and pigmentation spots.

### LIPOSOMAL ANTI-WRINKLE CREAM

Probiotic water *pro.aQua*  
Ferulic Acid  
3x Ceramides | Multi-Peptide

- REDUCES WRINKLES
- FIRMS

ALL SKIN TYPES | day/night | 50 ml

**Liposomal Anti-Wrinkle Cream** restores firmness, reduces existing wrinkles and prevents the formation of new ones. Makes the skin smooth and naturally fresh with even texture and tone.
