

YOUNG
skin
FOCUS

selfie
project.

Our cosmetics are **designed**
by experts for exceptionally
demanding **YOUNG** *skin*.

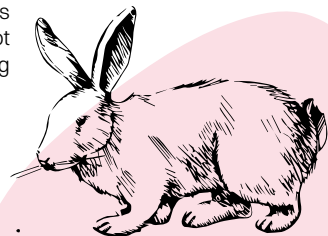

who we are

Selfie Project is a skin care brand developed by specialists, for the particularly demanding young skin. Selfie Project is **YOUNG** and it fully understands the needs of teenage skin. We know it is not always perfect, but we also know it will pass. Not so long ago, we went through this ourselves.

This is why we developed skin care products which will help you take care of your skin effectively.

animal lovers

We care about fair treatment of animals, so neither our cosmetics nor their components are tested on animals. Animals welfare is important to us and we do not approve of any harm being done to them.

Hi

how we work

Our cosmetics are made from carefully selected and safe ingredients. Using our specialists knowledge and experience as well as the latest technologies allows us to develop cosmetics adjusted to the needs of young skin. We listen to our clients opinions very carefully, which helps us continuously improve our cosmetics.

100% safety

Selfie Project cosmetics do not contain substances which are inappropriate for the young skins, such as SLS or paraffin. These are substances whose performance may negatively affect the skin, desiccating it, causing clogging pores and causing hypersensitivity reactions. Therefore, they have been eliminated and replaced by well tolerated by the skin, safe alternatives with high performance, and beneficial effect on the skin.

innovation we are

Having beautiful skin that is always ready for a perfect selfie is now possible with the combination of key ingredients for special assignments: Niacinamide, Zinc, 100% Pure Aloe Water and botanic components recommended for young skin care.

education young people

Thanks to the Selfie Project cosmetics, young people learn that the condition of the skin depends on its care. 4-steps skin care (cleanse, exfoliate, moisturize, beautify) is necessary to keep skin radiant and healthy for years to come.

trends & lifestyle always on time

We listen to the needs of young people, while following current trends. That is why Selfie Project cosmetics not only meet the needs of care, but due to the design refined in every inch, they make every teenager enjoy the skin care and willingly share it in social media.

selfie
project.

nature lovers

During creating Selfie products we use the wisdom of nature, which in its richness contains many plants, minerals and ingredients beneficial for young skin that help fight imperfections, cleanse, matte, soothe the skin and act multidirectionally to improve its condition and appearance. All these substances have been thoroughly analyzed and selected individually for each Selfie Project cosmetic to strengthen its effect on young complexion. Our products are filled with natural origin ingredients.

Teenage skin care

#routine

An effective skin care routine consists of **body care and 4 steps of face care:** cleansing, exfoliation, moisturizing and beautifying application.

step 1

#cleanse

Cleansing is the basis of skin care and preliminary procedure for all other skin treatments. By using gentle products for young skin you prevent imperfections and make sure your skin is smooth and healthy.

step 2

#exfoliate

Regular exfoliation promotes elimination of blackheads, evens skin tone, regenerates and refreshes the skin, creating a perfectly smooth base for other cosmetics products.

step 3

#moisturize

Moisturizing is a fundamental skin care step that provides healthy and radiant look, regardless of skin type. It does not promote sebum over-production but actually the opposite - it normalizes skin function and restores its balance.

step 4

#beautify

Simple and effective ways of discreet and natural improvement of your look and masking small imperfections immediately boosts your self-confidence.

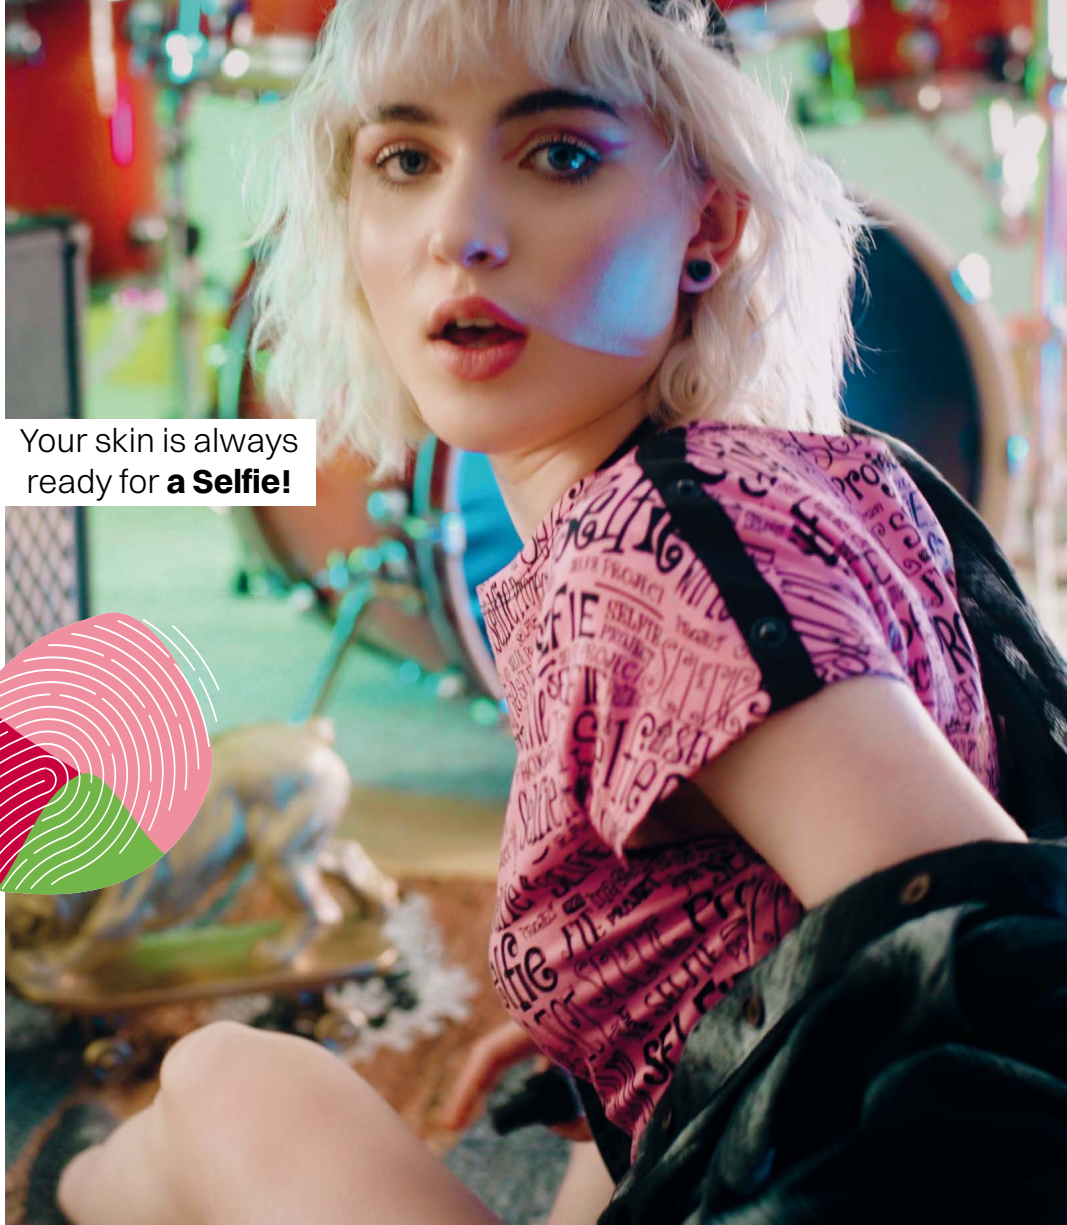

basic routine

Products dedicated to **YOUNG skin with imperfections, build a complex skin care routine.**

Lightweight, unique formulations that are easy to use - ideal as first skincare cosmetics. High content of ingredients of natural origin. Short, clean formulas without any unnecessary additives, vegan & cruelty free, mild fragrance, allergen-free.

Take care of
the skin's balance

To make it cleansed and matte, but deeply moisturized and brightened at the same time. Reduce all types of imperfections: inflammatory (blemishes) and non-inflammatory (blackheads).

Your skin is always ready for a **Selfie!**

body stories

mask line

Tattoo-styled body sheet.

Each young body is different and each is beautiful in its own way! It is important to care for it and just feel good in it.

At Selfie Project, we believe that for your satisfaction it is worth focusing on the **good sides of your body**, and even spoil it and „turn up“ its individual strengths, which each of us perceives differently.

Delicate fabric, soaked with powerful active ingredients will help you take care of your body, concentrate on it and create your own, amazing *#Body Stories!*

Buttocks, arms, bust or belly - each #SelfieGirl has its individual strengths!

hair *care* & style

As a young-skin specialists, **we perfectly understand the needs of teenagers**, both psychological and care-related.

We know what young complexion, skin and hair need.

The needs are common to this target group - due to advanced marketing research and hours spent on talking with representatives of the group, we have managed to precisely identify them.

They want the care to be adjusted to them, encouraging and comprehensible.

It is time for healthy and strong hair!

active regeneration

This is a comprehensive line of the daily care products for young hair, which help to keep them in good condition and prevent damage. Young hair does not yet require intensive repair action, but they need moisturizing, regenerating and nourishing in light, cleansing formulas.

Active Regeneration is a base of young hair care. This means focusing not only on strengthening and renewal, but also energizing and nourishing.

Young hair should be healthy, fresh and shiny - ready for everyday craziness and **standing out!**

Selfie hair - don't care!

Always ready for a Selfie!

#Selfie Project Collaborations

Beata Śliwińska

Born in 1988 in Poland. I'm a landscape architect and graphic designer and illustrator, with passion and profession of set design.

I work and live in Warsaw. I am a fan of collage and this technique lean my work style.

I deal with the post-production graphic editorial photosessions and fashion, smuggling in collage arts in my work style.

The techniques which the most common is a digital collage, but they also based on analogues and creating handwritten images.

malgrau

#Selfie Project Collaborations

The Malgrau brand was created for women who like minimalist forms, comfort, for whom a sustainable and ethical approach to fashion is important.

Running a clothing brand is a huge challenge, big responsibility and a great pleasure at the same time. It is a constant search for extraordinary solutions in order to combine functionality and comfort with the „artistic” aspect, by additionally taking care of fair trade principles.

We want the clothes to be worn for a long time and be multifunctional. Our mission is to create classic things because we think it's much cooler to find your style than chasing temporary trends.

MALGRAU

Maurissē

is a company dynamically operating in the cosmetics market, specializing in the production of innovative products for face, body and hair care.

For over 20 years we have been developing new brands concepts and successfully introducing them to the market: our brands Biotaniqe, OnSkin, Selfie Project and Biosepte, amaze with their high quality and innovation.

Maurissē sells the cosmetic products in the largest drugstore chain in Poland and on other diverse foreign markets.
